# THE ALLURE OF QUALITY

## CORK WITH A PAST AND A FUTURE

Cork oak forests are a living legacy. They tell a story of care passed down through generations. Each harvest respects the tree's rhythm, with the bark being gently removed by hand, leaving the tree intact to regenerate naturally. This quiet cycle, repeated over centuries, shapes resilient landscapes that shelter life, enrich the soil and protect against erosion. Preserving these forests is an act of balance, where nature thrives while communities draw lasting value from a natural material shaped by time, patience and tradition.

## MASTERING CORK SINCE 1972

For over five decades, we have worked with cork with the same respect and dedication held by the generations before us. Each product reflects the knowledge gained through experience, guided by exceptional craftsmanship and a deep care for cork.
Our commitment to excellence is evident in every detail, where quality is never compromised and materials are treated with care and purpose. Every cork solution we create is backed by decades of skill, innovation and trust. Time gave us the tools. Experience gave us the confidence to shape cork with a vision.

# DECODALLE

With DECODALLE, walls move from background to centre stage, revealing the full expressive potential of cork. Each tile is a dialogue between nature's raw tactility and refined colour, creating depth, rhythm, and quiet sophistication. The result is a surface that enriches interiors with character while maintaining an effortless balance. Thoughtfully crafted for versatility, DECODALLE integrates seamlessly into any environment and meets the demands of everyday life, a natural choice for both residential comfort and commercial durability.

# WABI

WABI speaks in quiet tones, a language of lightness, simplicity, and balance. Crafted from recycled cork, it reveals smooth, tactile surfaces infused with subtle colour harmonies that pair effortlessly with a wide spectrum of interior styles. The natural essence of cork brings resilience, warmth, and comfort to every space it touches. Embracing the poetry of irregularity, WABI celebrates cork's innate character, its gentle imperfections, its depth, its versatility, transforming them into a surface of understated elegance.

# MODULAR

MODULAR brings architectural precision to interior walls, offering three orthogonal designs with subtle 3D effects inspired by the modular compositions of Le Corbusier. When combined in patterns and arrangements, the large-format cork tiles create a striking interplay of form, colour, and texture, balancing cork's natural expression with contemporary design for a fresh, engaging aesthetic.

# BEBOP

Inspired by the free spirit of jazz, BEBOP turns walls into dynamic compositions. Each cork panel, made from agglomerated toasted cork grains, plays with light, shadow, and texture, breaking monotony with bold geometric reliefs. Its deep, natural brown highlights cork's innate character, while varying tile sizes and thicknesses create rhythmic patterns that can be both seen and touched. BEBOP transforms interiors with movement, energy, and sustainable, high-impact design.

# 3DFORMS

3DFORMS transforms flat walls into sculptural statements, where renewable cork meets precision-cut geometry. Inspired by Portuguese tiles and mid-century wood panelling, each tile plays with light and shadow to create patterns that shift throughout the day, adding depth, movement, and rhythm to interiors. Its modular forms can be arranged in subtle repeating sequences or bold, unique compositions, offering a versatile and playful way to bring cork's natural warmth and tactile presence into any space. 3DFORMS is a harmonious dialogue between material, form, and design - a sculptural, nature-inspired alternative to conventional wall coverings.

**CORKGUARD** — water and stain protection
Aqueous dispersion based on SCOTCHGARD™ and a combination of resins, designed to provide excellent and durable water, oil and stain repellent properties on natural cork.

**AQUADUR** — waterborne finish
Very low emissions waterborne finish, with a natural look-and-feel, great elasticity and good chemical resistance.

**PARAWAX** — flexible wax coating
Wax based product developed specially for cork, with good flexibility, abrasion, and moisture / water repellence.

**4BEVEL** — 4 edges bevelled
4 sides bevelling edges for aesthetic enhancement.

**DDP** — direct digital print
Direct-to-cork digital print proprietary technology.

**AGGLOPURe** — no added formaldehyde
Formaldehyde-free, PVC-free and phthalates-free cork agglomeration technology.

FSC® C044061 Certified chain-of-custody system, meeting the requirements of Forest Stewardship Council® standards.

VOC certification assuring that strict indoor air emissions limits are met.

International symbol identifying products made with genuine cork.

### Walls Maintenance

Delivering Nature wall tiles are finish with a special coating that will keep their beautiful look for many years. However, as any other kind of wall covering, it requires a proper cleaning to ensure durability and appearance.
As time passes, wall tiles may, eventually, need some kind of maintenance. Although we can make general recommendations, the specific use conditions will determine how frequent maintenance is needed.

Periodic maintenance for wall coverings should include light dusting or use of a vacuum cleaner with a soft brush attachment.
Stains should be removed as soon as possible to limit possible reaction between the staining agent and the wall covering. Time is especially important for removing materials containing colours or solvents, such as ballpoint ink, lipstick, oil, shampoo tints, and some foodstuff.
Remove any damp or wet marks as much as possible using an absorbent material. Remove any dry marks or dirt using a slightly damp cloth, mild soap, warm water, and if necessary, a soft brush to remove dirt from the crevices of deeply textured patterns.
For more difficult stains, the use of a standard non-aggressive cleaning agent is recommended. Only mist the wall lightly with the cleaning solution or spray the cleaner directly onto a clean sponge or cloth. Avoid excess rubbing.

### Attention

Delivering Nature products are made with high quality natural materials and should be handled accordingly. In spite of all due care given during manufacturing, there will be variations in appearance (colour, gloss, or texture). This should be verified before installation, distributing the tiles in a way that variations are not striking.
The surface may change colour when exposed to direct sunlight.

Although every effort has been made to ensure accuracy during the production of this catalogue, GRANORTE disclaims potential product changes and possible print errors. The product photos may not accurately match the real colour and texture of the finished product.

WE PROVIDE AN AUTHENTIC INSIGHT INTO THE WORLD OF CORK AND DESIGN.
